Analytical and results-driven Data Analyst with a strong background in supply chain optimization, logistics support, and advanced analytics. Proven ability to clean, structure, and analyze complex datasets to drive operational improvements. Skilled in database management and data visualization. Proficient in Python, Power BI, SAP, and SQL. Bilingual in French and English.

PROFESSIONAL EXPERIENCE

Thales, Fleury-les-Aubrais, France
Logistics Support Analyst   Sep. 2024 – Aug. 2025

- Analyzed equipment reliability, maintainability, and availability data to drive operational excellence and identify process improvement opportunities.
- Managed complex product structures and technical documentation to ensure seamless logistics operations and enhance cross-functional collaboration.
- Conducted life-cycle cost analyses to support decisions.
- Developed and implemented key performance indicators (KPIs) to proactively monitor system efficiency and deliver actionable insights.
- Maintained and regularly updated the Logistics Support Database to ensure data accuracy and integrity.
- Designed and implemented a custom application to streamline maintainability analysis procedures, managed technical specifications and budget.

Thales, Fleury-les-Aubrais, France
Data Analyst   May 2024 - Sep. 2024

- Analyzed complex Integrated Logistics Support (ILS) data to identify trends and drive improvements in system reliability.
- Developed interactive Power BI dashboards to enhance data visualization and support strategic decision-making.
- Automated data extraction and update processes to improve efficiency and reduce manual workload.
- Monitored and analyzed key logistics support performance indicators to assess system effectiveness and support planning efforts.

Heineken, Port-au-Prince, Haiti
Production Planner   Oct. 2021 – July 2023

- Led end-to-end production planning operations for 4 production lines with 30+ SKUs portfolio (€27M annual revenue), driving a 28% reduction in out-of-stock incidents and 12% optimization in storage costs.
- Monitored and analyzed finished goods inventory levels using KPIs and interactive dashboards to support data-driven decision-making.
- Conducted in-depth analysis of historical production data to identify seasonal trends, optimizing production plans and ensuring alignment with sales forecasts
- Led Sales & Operations Planning (S&OP) meetings, coordinating cross-functional collaboration between production, sales, supply chain, and finance teams.

Solutions S.A, Port-au-Prince, Haiti
Assistant IT Project Manager   July 2021 - Oct. 2021

- Contributed to the successful deployment of three enterprise software solutions across a user base of over 200 employees.
- Created and maintained user documentation and guides, leading to a measurable reduction in support requests.
- Participated in software testing and validation phases to ensure functional alignment with end-user requirements and business objectives.
- Facilitated user adoption by leading training workshops and providing hands-on support for newly implemented systems.
